

# Rainforest Animals

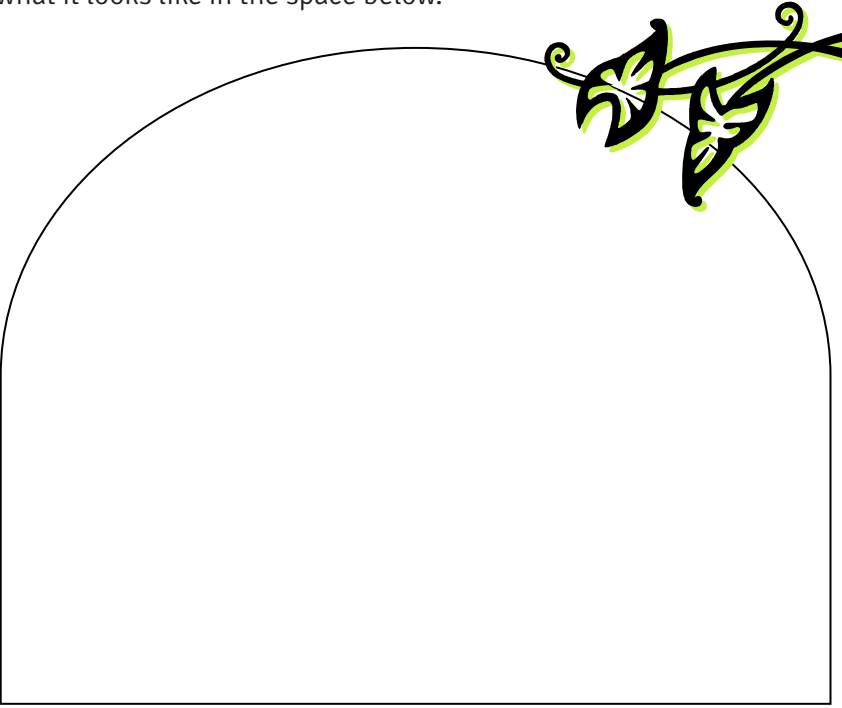

Name:

A **habitat** is a place where animals and plants live. Using this sheet you are going to find out about different animals that live in a rainforest habitat. Explore the **Worlds Alive** gallery to help you find the answers.

**Go and find the alligator.**  
Where in the rainforest would this animal live?  
.....  
What features or adaptations does the alligator have to make it an excellent predator?  
.....  
Draw one of the alligator's adaptations in this box.

**Can you find the overhang looking out into the Winter Gardens?**  
This is similar to what a rainforest may look like. Draw a picture of what it looks like in the space below.

**Can you find the live tarantula?**  
They can give some people the creeps because of their large, hairy bodies and legs. Tarantulas are carnivores. What does this mean? (tick one box)  
 They eat meat  
 They eat vegetation  
 They eat meat and vegetation

All these creatures live in the rainforest, but do you guess in which rainforest layer?

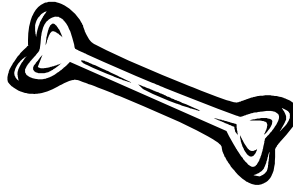

<b>Giant millipede</b>	<b>Emergent layer</b>
<b>Parrot</b>	
<b>Chimpanzee</b>	
<b>Piranha</b>	<b>Canopy</b>
<b>Butterfly</b>	
<b>Tarantula</b>	<b>Understory</b>
<b>Toucan</b>	
<b>Tree frog</b>	
<b>Leaf cutter ant</b>	
<b>Anteater</b>	<b>Forest floor</b>

# Rainforest Animals

**Find the interactive called 'Funny Bones'.**

Can you guess which rainforest animal number 4 belongs too?

.....

Draw a picture of your favourite rainforest animal in the **Worlds Alive** Gallery and answer the questions below:

How many legs does it have? .....

What is its skin covered with? (circle the answer)    **feathers**    **scales**    **fur**    **shell**    **spines**

Where do you think it lives? .....

What do you think it eats? .....
